

Pintxos Tour in Bilbao

Pintxos are miniature culinary masterpieces. They are made combining any kind of product, both traditional and modern ones. The pintxos variety is endless because it depends on the cook's imagination. Many bars show their own creations and specialties. In the Basque Country there's no need to take a seat in order to have a great meal.

Normally consumption of pintxos is linked to the "txikiteo", which consists of going from one bar to another, with one's friends, drinking wine, "txakoli" (typical Basque white wine), cider, "zuritos" (small amounts of beer) or soft drinks such as "mosto" (grape juice).

Today we will live this tradition firsthand, becoming a real citizen of Bilbao.

We will have a total tasting of **6 Pintxos + 3 drinks** (such as draught of beer, glass of wine, Txakoli, soft-drink or similar), per person. To book this activity, please fill in the attached form and email it to grupos@stipaisvasco.com.

On egin!!

Important note: There will be non-alcoholic drinks options and pintxos according to dietary restrictions.
