Outcome of the conference participation

Description of the outcome of the presentation of the accepted contribution, in terms of grantee's visibility, including the establishment of new contacts for future collaborations

ASV is one of the most prestigious virology conferences worldwide. At this edition, there were over 1600 participants from all over the world. Importantly, during the conference, I presented my research, as well as, I established new, significant contacts that may be useful for future collaboration or finding a new workplace after finishing my PhD studies. What is more, I came back with lots of new ideas and experimental approaches for my experiments.
