### **Outcome of the conference participation**

Description of the outcome of the presentation of the accepted contribution, in terms of grantee's visibility, including the establishment of new contacts for future collaborations

*(max.500 words)*

My poster presentation at the Innovative Approaches for Antiviral Agents Summer School (IAAASS) was very successful in terms of visibility and networking. I had the opportunity to interact and discuss my work with specialists in virology and antivirals, as well as with PhD students working on similar topics from all around the world. During the time I was presenting my poster, I was pleasantly surprised by the number of people who approached me with questions about my work and their interest in my results.

The IAAASS was more than a traditional conference because it didn't only consist of lectures and presentations but also provided the opportunity to have conversations in an informal environment (lunch, dinners, discussion groups and round tables) with the professors. This was a great opportunity to discuss possible collaborations as well as future post-doc job opportunities.

<sup>1</sup> This report is submitted by the grantee to the Action MC for approval and for claiming payment of the awarded grant. The Grant Awarding Coordinator coordinates the evaluation of this report on behalf of the Action MC and instructs the GH for payment of the Grant.

<sup>2</sup> For an online conference, specify virtual participation; for hybrid conferences, specify whether it is an in-person or virtual participation.

In conclusion, I would say that my participation in the IAAASS was a complete success and a great experience. I am very pleased that I had the chance to participate in such an interesting and enjoyable meeting.
