Outcome of the conference participation

Description of the outcome of the presentation of the accepted contribution, in terms of grantee's visibility, including the establishment of new contacts for future collaborations

(max.500 word)

My poster presentation at the ASV 2022 conference gave me the opportunity to interact and discuss my work with other researchers working on the topic. During the hour and a half that I was presenting my poster, I was pleasantly surprised by the number of people who approached me with questions

about my work and their interest in my results. Some of the researchers who contacted me were working on similar topics and future collaborations were discussed. Also, my attendance at the other oral and poster presentations during the conferences gave me the opportunity to learn about what is being done on the topic and to establish some future job opportunities. In conclusion, I would say that my participation in the ASV 2022 conference was a complete success and a great experience. I am very happy that I had the chance to participate in such a large and prestigious virology conference.
