Outcome of the conference participation

Description of the outcome of the presentation of the accepted contribution, in terms of grantee's visibility, including the establishment of new contacts for future collaborations

(max.500 word)

The Innovative Approaches for Antiviral Agents Summer School (IAAASS) aims to review the application most advanced techniques for the identification of novel and clinically significant antiviral effective agents. The IAAASS conference is one of the few virology events to link the conference and the summer school. During the conference, I presented my work and established contacts and cooperation with other scientists. After my talk, I had very interesting questions about my work, and also I got some new ideas. I had many opportunities to exchange knowledge and experience with experts in their field. The IAASS conference gave me a significant

impact on my scientific career, and networking. Thanks to new contacts I have more opportunities to lead my future career, I got a few offers for a post-doc position. Participation in this event was very important to me, I am grateful that I could take part in it. Now I know more about how I can further develop my research career.
